

Swedry® Carpet Cleaning directions

► Directions - **How to dry clean your carpet**

1. Vacuum area to be cleaned.
2. Pre-clean / remove stains.
3. Apply dry carpet cleaner.
4. Brush with approved brush.
5. Vacuum / remove dry carpet cleaner.

► **1. Vacuum area to be cleaned:** Maintain your vacuum equipment (check bag and belts) to ensure optimum performance.

► **2. Use Swedry® ACCELERATOR™ to remove challenging stains:** Use ACCELERATOR™ to remove difficult stains such as; ink, red dyes, petroleum or grease. Follow directions on label or visit drycarpet.com

► **3. Apply Swedry® Carpet Cleaner to spot or to area:** How much product to apply depends on prevailing soil conditions. One canister of Swedry® Carpet Cleaner will clean **25-75 square feet**.

► **4. Brush Swedry® Carpet Cleaner with approved brush (included):** Brush Swedry® Carpet Cleaner in several directions. Overlap and intersect your brush strokes. Brush in a north-south direction and then a east-west direction.
Important. Re-apply and re-brush Swedry® Carpet Cleaner in abused or detergent residue areas. Swedry® Carpet Cleaner removes detergent residue left in carpet by steam cleaning services, household spot removers or rental cleaning units.

► **5. Vacuum/remove Swedry® Carpet Cleaner:** Allow Swedry® Carpet Cleaner to dry (2-3 minutes) before vacuuming. Swedry® Carpet Cleaner cannot clog any type of vacuum cleaner. Swedry® Carpet Cleaner *brightens* color ... restores luster ... helps rugs wear better ... *stay clean longer!*

At the office?: It is okay to leave Swedry® Carpet Cleaner in your carpet for several hours or several days! Swedry® Carpet Cleaner is not harmful and will continue to absorb any new soil for 3 days. You may walk on Swedry® Carpet Cleaner if you'd like.
